

System Configuration Guidance For File Download

Version 3.0

1

The following guidance has been provided to use with Microsoft Windows to configure the system to support the file download function within CMS. This guidance process has been externally tested in a limited capacity; therefore Users should consult their IT representative before following the guidance.

Process Steps

1. Click on start menu on your windows computer and click on run

2. Type "regedit" and click on ok button

Run	? 🔀
-	Type the name of a program, folder, document, or Internet resource, and Windows will open it for you.
Open:	regedit
	OK Cancel Browse

3. Please navigate to the following location by clicking on the "+" sign, on to left of the folder.

HKEY_CURRENT_USER >> SOFTWARE >> Microsoft >> Windows >> CurrentVersion >> Internet Settings

🕼 Registry Editor			
Eile Edit View Favorites Help
