## Section 1: Overview of Change Delivery

Distribution Networks require the Formula AQ and SOQ, with the respective effective dates, in order to understand the impact on their revenue caused by reductions in the Formula AQ and SOQ as a result of COVID-19.

It has been raised that AQ corrections are being made as a result of COVID19 and in order to be able to understand the impact on their revenue as a result the Formula AQ and SOQ are required.

The REC121 is an I&C portfolio report at the network level and is delivered to the respective network on a monthly basis (13th business day of the month). Adding the required additional data to this report would be a logical delivery method.

The change has been discussed with the network Pricing Managers and they are supportive of this change.

It should be noted this is only applicable to I&C, Class 3 and 4, sites.
