A3: Proposer Requirements / Final (redlined) Change

Problem Statement:	Xoserve are closer to the NDM demand estimation process than the DN's and have a close relationship with Shippers in this regard, they are therefore better placed to ensure the correct coverage across each EUC Band and Class.
--------------------	---

Change Description:	Discharge of Cadent, WWU and NGN NDM Sampling UNC obligations (as per UNC TPD H1.6) for EUC Bands 3-9 by the CDSP. Note the CDSP already carries out NDM sampling for EUC Bands 1 and 2 so this change is simply an extension to the current CDSP process.

A4: Benefits and Justification

Benefit Description:	<p>The CDSP has an intimate knowledge and extensive experience of the NDM demand estimation process and have a close relationship with Shippers with respect to this. They are therefore best placed to improve sampling rates and coverage across classes through assuming responsibility for the installation and maintenance of sampling equipment at EUC Bands 3-9 as well as EUC Bands 1 and 2 as present. The CDSP may also wish to consider alternative methods of procuring NDM Sampling data such as sourcing from the DCC or Shippers themselves if this proved more efficient.</p> <p><i>What, if any, are the tangible benefits of introducing this change? What, if any, are the intangible benefits of introducing this change?</i></p>
