Justification for Customer Class(es) selection	<p>At the request of Shipper customers, Xoserve developed UIG Additional National Data reports. These reports were developed for Shippers to support validation of UIG allocation on a monthly basis.</p> <p>This change seeks to further enhance the UIG Additional National Data reporting outputs for Shipper customers and therefore can be viewed as a Shipper benefiting change.</p>	

A3: Proposer Requirements / Final (redlined) Change

Problem Statement:	Currently the UIG Additional National Data report does not provide a breakdown of energy by EUC Sub Band, which were introduced as part of Modification UNC 0644 and delivered under XRN4665 'Creation of New End User Categories'. The absence of this breakdown means that customers are not able to validate UIG allocations as effectively as is required, due to the aggregate nature at which the data is currently presented.		
Change Description:	<p>This Change Proposal seeks to amend the existing version of the UIG Additional National Data report, to provide the requested aggregate energy values for each of the four respective End User Category Sub-Bands, as detailed below:</p> <ul style="list-style-type: none"> • Non-Prepayment/Domestic • Prepayment/Domestic • Non-Prepayment I&C • Prepayment I&C <p>The changes to the UIG Additional National Data report to include energy by Class by EUC sub band could be delivered as an additional data tab as opposed to changes to existing tabs.</p> <p>For clarity, the End User Category Sub-Bands are applicable to EUC01 and EUC02 only.</p>
