Document Purpose

This document is intended to provide a single view of a change as it moves through the change journey. The document is constructed in a way that enables each section to build upon the details entered in the preceding section. The level of detail is built up in an incremental manner as the project progresses.

The template is aligned to the Change Management Procedures, as defined in the CDSP Service Document. The template is designed to remove the need for duplication of information. Where information is required in one section but has been previously captured in a previous section, the previous section will be referenced.

The summary table on the front page shows the history and the current status of the Change Proposal.

Reason(s) for proposed service change	Current Shipper Portfolio Summary Report was introduced some time back and many of fields supplied are no longer relevant due to industry change i.e. removal of interruptible supply points (so blank). As Nexus is now implemented the PSR report needs to provide information relevant to Supply Point Class. Also provide information around AMR equipment and Smart Meters recorded on the register

Implementation Options

Please provide details on any alternative solution/implementation options:

This should include:

- (i) a description of each Implementation Option;
- (ii) the advantages and disadvantages of each option
- (iii) the CDSP preferred Implementation Option

Do Nothing:

The report shall remain as is and remain unfit for purpose

Recommended Option:

The recommended option is to amend the existing report so that it is fit for purpose, ensuring that only relevant fields are on the report along with AMR equipment and Smart Meters information. The fields will be as captured in the Change Request; however there is an outstanding action from the last DSG meeting which may change the fields. If there are additional fields identified and it does not significantly impact the complexity of the amendments it shall be included, however this might occur additional cost.

The advantages of proceeding with this option are as follows:

- Ensuring the reporting is fit for purpose along with maintaining customer satisfaction
- No system changes or new reports, ensuring a quick turnaround time
- Additional information which wasn't previously captured in this report shall be added and all relevant information is provided to the Shippers

The disadvantages of proceeding with this option

- Will add to the current change congestion of the team that will be delivering the report
- The requirements may change at the DSG session on 9th April 2018 which may result in additional requirements, amending the complexity of this Change Proposal.

Restricted Class Changes only

Is there any change in the view of the CDSP on whether there would be an 'Adverse Impact' on customers outside the relevant customer class(es)?

Yes (please give detail below)

No

Dependencies:

The Project is dependent upon no / minor changes being identified in the next DSG. If more complex requirements are received by this group then this may impact the delivery timescales and cost of this Change Proposal.

Constraints:

N/A

Benefits:

The main benefit is that the Shipper Portfolio Report remains fit for purpose, to ensure the users get the maximum value out of the report and the data contained within the report.

Impacts:

Other than adding to the current change congestion there are no foreseeable impacts of delivering this report

Risks:

There is a small risk that delivering this change may add to the current change congestion, which may impact but not limited to:

- Environments
- Resources
- Prioritisation of delivery

There is also a risk that additional requirements are identified in the DSG which will impact the complexity and the cost of this Change Proposal.

Assumptions:

There are no / minor changes identified to the requirements in the DSG on 9th April 2018

Information Security:

The Information provided within the report will only be the information that is valid for the recipient to receive.

Out of scope:

Anything other than the requirements stipulated in the Change Proposal is out of scope, unless the DSG confirm small / minor changes that can be accommodated within the proposed timelines and cost.

Please provide any additional information relevant to the proposed service change:

Appendix One: Glossary

Term	Definition
Adverse Impact	<p>A Service Change has or would have an Adverse Impact on Customers of a particular Customer Class if:</p> <p>(a) Implementing the Service Change would involve a modification of UK Link which would conflict with the provision of existing Services for which such Customer Class is a Relevant Customer Class;</p> <p>(b) the Service Change would involve the CDSP disclosing Confidential Information relating to such Customers to Customers of another Customer Class or to Third Parties;</p> <p>(c) Implementing the Service Change would conflict to a material extent with the Implementation of another Service Change (for which such Customer Class is a Relevant Customer Class) with an earlier Proposal Date and which remains Current, unless the Service Change is a Priority Service Change which (under the Priority Principles) takes priority over the other Proposed Service Change; or</p> <p>(d) Implementing the Service Change would have an Adverse Interface Impact for such Customers.</p>
General Service	A service provided under the DSC to Customers or Customers of a Customer Class on a uniform basis.
Non-Priority Service Change	A Service Change which is not a Priority Service Change
Priority Service Change	<p>A Modification Service Change;</p> <p>or</p> <p>A Service Change in respect of a Service which allows or facilitates compliance by a Customer or Customers with Law or with any document designated for the purposes of Section 173 of the Energy Act 2004 (including any such Law or document or change thereto which has been announced but not yet made).</p>
Relevant Customer class	A Customer Class is a Relevant Customer Class in relation to a Service or a Service Change where Service Charges made or to be made in respect of such Service, or the Service subject to such Service Change, are or will be payable by Customers of that Customer Class
Restricted Class Change	Where, in relation to a Service Change, not all Customer Classes are Relevant Customer Classes, the Service Change is a Restricted Class Change ;
Service Change	<p>A change to a Service provided under the DSC (not being an Additional Service), including:</p> <p>(i) the addition of a new Service or removal of an existing Service; and</p> <p>(ii) in the case of an existing Service, a change in any feature of the Service specified in the CDSP Service Description, and any related change to the CDSP Service Description</p>
Specific Service	A service (other than Additional Services) available under the DSC to all Customer or Customers of a Customer Class but provided to a particular Customer only upon the order of the Customer.
