A3: Proposer Requirements / Final (redlined) Change

	The current CMS system is dated and at end-of-life support. New		
Problem Statement:	customer classes have joined the market, but the workflows have		
Problem Statement.	not been updated to cater fully for the new customers or improved		
	for existing customers. Therefore, customers required a newly built		
	solution. This is an agile delivery and so contact codes will be		

	delivered incrementally to ensure that customers receive benefits as soon as practically possible.			
Change Description:	 This XRN will be a child XRN to 5556. Within this version we will strive to deliver additional functionality and processes where possible, however our priority processes are Gas Safety Regulations (GSR), Manage Unregistered Sites (MUS). Should we have capacity in this version release to include anything additional, this shall be communicated out via Change Packs and the forums ChMC, CoMC and the Customer Focus Group. We are currently targeting the late Q4 2023 for delivery. As per previous releases we shall be discussing in detail the process within our Customer Focus Groups and the supporting Change pack will be issued for consultation in July for August ChMC
