Section 1: Overview of Change Delivery

Change Proposal XRN5561 has been raised to support the delivery of [Urgent Modification 0822 – Reform of Gas Demand Side Response Arrangements](#).

Modification 0822 – Reform of Gas Demand Side Response Arrangements has been raised to include provisions within the UNC for National Grid NTS to:

- Administer an invitation to offer process for Gas Demand Side Response (DSR),
- Introduce option payments to Users that arrange with consumers to provide DSR in advance of winter, and
- Extend the trigger for opening the DSR market from the issue of a Gas Balancing Notification to also include issue of a Margins Notice at the day ahead stage.

XRN5561 specifically supports the introduction of “**Option**” **payment and penalty charges** issued by the CDSP.

As detailed within the Change Proposal, to align with the Urgent Modification timescales, the CDSP are utilising existing functionality for the required invoices and existing Charge Types to deliver this change.

Based on this, there were no costs associated with the implementation of XRN5561.

This CCR is to officially close down XRN5561 following implementation.
