

DSC Delivery Sub-Group

Meeting Summary

Monday 21st September 2026 at 10:30am
Microsoft Teams Meeting

Industry Attendees		
Name	Organisation	Initials
Aleksis Butler	BU-UK	AB
Alex Potter	National Gas	AP
Andrew Rowlands	ESG	AR
Anusha Patel	Corona Energy	APA
Ashutosh Rai	N/A	AR
Danny Cortis	EDF Energy	DC
Dan Harris	National Gas	DH
Daniel Kearney	Utilita	DK
Danielle Wylie	British Gas	DW
Joanne Hargreaves	MUA Gas	JH
Mark Jones	SSE	MJ
Kamila Evans	SGN	KE
Kundai Matiringe	BU-UK	KM
Marina Papathoma	WWU	MP
Masa Delic Peranic	Utilita	MDP
Paul Senior	Utilita	PS
Stephen Thun	NGN	ST
Steve Mulinganie	SEFE	SM
Uday Pratap Singh	N/A	UPS

Xoserve/Correla Attendees	
Name	Initials
Karen Gray	KG
Vikki Orsler	VO
Amy O'Donnell	AO
James Barlow	JB
James Randle	JR
Marvin Clare	MC
Michael Payley	MP
Rob Westwood	RW
Simon Harris	SH
Steve Pownall	SP

Slides available [here](#).

1. General Meeting Administration

1a. Welcome and Introductions

Karen Gray (KG) welcomed everyone to the meeting and introduced herself as the DSC Portfolio Release Manager. KG informed all attendees that this meeting is being recorded and published on Xoserve's website. KG informed the attendees of the agenda.

1b. Previous DSG Meeting Summary and Action Updates

KG asked for feedback on the summary for the previous Delivery Sub-Group (DSG) occurrence; no comments were received. The summary was approved.

2. Changes in Change Development

2a. New Change Proposals

2ai. XRN 6122 Amendment to Emergency Contact Data Provision to GTs, IGTs & NGT

James Randle (JR) presented slide 6, noting that this Change Proposal was approved into Development in September's Change Management meeting. Distribution Networks, National Gas Transmission and Independent Gas

Transporters are all impacted by this change as they are the recipients of the Emergency Contact Data provided. Whilst the need for this change was identified as part of analysis for Modification 0926S for the improvement of the Shipper obligated supply of EMR Data, the Modification is not dependant on this change as it affects the receipt of the data by the affected parties, as opposed to the supplying of the data by Shippers.

No questions were raised by DSG representatives.

2a.ii XRN 6123 Introduction of a DN Daily Metered Designation Category (UNC Mod 0933S)

Marvin Clare (MC) presented this agenda item, noting this Change looks to introduce a new designation category of 'DN daily metered'. MC added that this change will introduce processes and system capabilities to identify and manage SMP's designated as "DN Daily Metered" and will enable DNO's to access hourly and daily consumption data at larger Class 2, 3 and 4 SMP's.

Please note, this change will not alter existing Product Class UNC obligations. The expectation is to align with the existing network designation processes as much as possible and utilise existing file formats and mechanisms to share the daily/hourly read information with DNs (and Shippers if requested).

No questions were raised by DSG representatives.

2b. Undergoing Solution Options Impact Assessment Review - **None for this meeting**

3. Detailed Design

3a. Design Considerations

3a.i XRN 5994 Emergency Contact Validation Service

JR presented slides 10-13, adding that this change requires the CDSP to provide a new Emergency Contacts Validation Service on behalf of the DNs to improve the quality of, and confidence in, the EMR data held on CDSP systems. The quality of Emergency Contact data is of the highest priority for all industry parties due to the HSE safety ramifications of inaccurate or incomplete details being provided.

2 questions were raised by customers in the meeting chat:

Kamila Evans asked if there was a reason the emergency exercise validation was postponed until next year? JR added that the timing of the initial implementation would have crossed over the existing DN autumn validation,

as such it was agreed that DNs would receive the most benefit by delaying until 2027. There is also other work currently being undertaken by Xoserve to improve the quality and quantity of the data, which should feed into the Validation Service to improve the outcome.

Steve Mulinganie asked if the call handler script has been made available? Paul Orsler (PO) added that details of the scripts Xoserve are proposing to use for this exercise have been included within the Detailed Design Change Pack which is currently out for consultation via the Change Management Procedures - [3509 - VO - KG September 2026 Change Pack - XOSERVE](#)

3a.ii XRN 6001 Modification 0909 - Refining the Class 2 Individual Valid Meter Reading Requirement Performance Measures

James Barlow (JB) presented slides 14-19, noting that this Change Proposal has been raised to deliver the requirements set out within Modification 0909. At high-level, this change seeks to update the 'Individual Valid Meter Reading Requirement' (as per UNC 5.17.1(c)) to create two conditions which will form the Individual Valid Meter Reading Requirement for Class 2 (see CP for full details)

As well as updating the conditions for the Class 2 Individual Valid Meter Reading Requirement, this Change Proposal also seeks to create consistency by ensuring both the D+1 and D+5 positions are reported on in the general Class 2 Read Performance (PARR reports 2A.5 and 2B.5).

JB added that subject to the implementation of DDP Release 3, the above measures will be effective from 1st October 2026.

No questions were raised by DSG representatives.

3b. Requirements Clarification – None for this meeting

4. Major Release Updates

4a. XRN 5983 – February 26 Major release

- XRN 5906 and 5914/5922 has completed Post implementation support (PIS) and been handed over into BAU 29/05/26.
- Closedown in progress

4b. XRN 6045 – June 26 Major Release

- Overall release is tracking to target; project was implemented on 26/06/2026.

- June 26 Major Release has now completed following a successful PIS exit on the 31st July.

4c. XRN 6065 – Minor Release 16

- MiR16 implemented on contingency date 21/08/26

4d. Minor Release 17 (Scope for Information)

- Overall release is tracking to target; project is planned to implement on 27/11/2026.
- XRN5805 & XRN6081.B have started build on 24/08/26
- XRN5955 started build on 07/09/2026
- XRN5582b is due to start design on 14/09/26

4e. XRN 6095 November 26 Major Release

- Implementation date has moved to 29/01/27; updated BER to follow

5. Change Pipeline

KG gave an overview of slides 27-30:

- XRN 6001: This Change Proposal is not included on the Change Pipeline slide as it is included within the DDP backlog. DDP updates are provided at Change Management, and the slides can be found within that presentation each month on the Joint Office website
- The Change team are reviewing the on-hold changes

6. AOB

6a.i XRN 5949 - New Priority Consumer Category related to Community Heating - Industry Workshop

This session has been arranged for impacted stakeholders to discuss the upcoming implementation of XRN 5949, gain a more detailed understanding on the change and knowledge share / workshop concerns raised to an agreed resolution to support the operational processing of the Priority Consumer Process. Simon Harris (SH) presented this agenda item and went through the slides issued out via the dedicated communication.

Additional information will be sent out in the coming days.

This was the end of Monday 21st September 2026 DSC Delivery Subgroup meeting.

Next Meeting: (26th October 2026)
